Good morning everyone

Yesterday it was determined that the heater to the pool is not operable. Until the heater is replaced the pool will remain closed. We apologize for this inconvenience and hope to have the pool up and running as soon as possible.

Yesterday management went through the property and noted several items attached to the siding, hooks attached to the decks and other items not approved for storage at the property. We ask that you check your patio/deck and remove those items.

Also please remember that charcoal and gas grills cannot be used or stored on the second and third floors. The first floor units need to pull the grill 10 ft from the building when using their grills.

If you have any questions with regard to what can be placed on the patio or deck please call me at (603) 429-2019 ext. 338. I am at the property at least once a week so if you need to speak to me or show me an issue I am happy to meet with any resident.
