Good afternoon everyone

On Wednesday weather permitting Prime Touch will be at the property and will be starting with the carpentry repairs.

We will begin at building 3 and move forward from there. We are asking that during the week that all items be removed from the patios and decks to allow the contractors access to the entire building.

I will be delivering notices to all of the residents in building 3 this evening. If you have any questions please call me at 429-2019 ext. 338.
