Good afternoon everyone

Mike Joy's information is on the bottom of this email communication. He has asked that you call him for an appointment if you need to have him deliver and install the light bulbs, water savers and thermostats after hours. If you live in building 1 or 4 you may contact Mike Joy to get a quote on the thermostat installation.

For residents that do not have ample water pressure the water savers will help with the pressure.

We have great news! Prime Touch will be painting buildings 1,3, and 4 this year. Building 2 and the clubhouse will be done in the spring. We simply ran out of time.

Prime Touch will be pressure washing building 3 beginning on October 1st. Please make sure all of your windows and doors are closed and everything is taken off the decks.

If you have any questions or concerns please call me at (603) 429-2019 ext 338 or email me at [cgarland@harvardmanagement.com](mailto:cgarland@harvardmanagement.com)

thank you.

Michael Joy
