Good afternoon everyone

We have had a few questions regarding the snow removal policy/procedure this afternoon. First we would like to remind everyone that the requirement to be out of the lot is on Wednesday by 9:00am NOT Tuesday. If at any time it is necessary for MNM Building and Grounds Maintenance to return after making reasonable attempts to clear snow where residents have not moved cars, the charge will be \$85 for the return. This is not a fine levied by the association. This is a charge from a vendor.

If snow has had to be piled because cars have not been moved, and return is necessary to move snow piles at a later time, the charge will be \$150.00/hr per occurrence. Ultimately MNM has been given permission to have vehicles towed from the premises. All Collision is the towing company. If your vehicle is missing please call them (603)224-6065. They charge \$185.00 for the tow and \$65/day. This is the last resort. We hope that everyone is safe throughout the storm.

Harvard Management will be closed tomorrow but the answering service will be relaying emergencies to each of the managers throughout the day.
