Good afternoon everyone

The pool is back up and running.

Also we would like to remind all of you that the loan paid for repairing the decks and the buildings this past year. With that being said leaving snow on the decks will cause severe damage to the decks and deteriorate the building.

If you are renting your unit out please make this part of your lease requirement or make sure that you remove the snow.

If you are unable to shovel your deck please contract with a vendor and get this done after each storm.

With more snow coming over the next 5 days please make sure that you remove your vehicle from the lot by 9:00am the day after the storm so that MNM Maintenance can clear the lot. in a timely fashion.

thank you.
