Snow Removal Notice

In order to clear all snow from lots, all vehicles must be removed from the Oak Bridge parking lots by 9:00 AM the day after a snow storm. We are running out of places to put the snow and plowing has become extremely difficult. Please do not clear your car and move it to another spot in the lot as this inhibits proper plowing. Towing will occur if vehicles hamper plowing.

Towing number: 603-224-6065

Per Bylaws, all owners are responsible for keeping their decks and patios free of snow, ice and standing water.

The Concord Fire Department has informed management that nothing is to be placed in the hallways. Please place all shoes and boots inside your unit. Also not have place anything on the door that covers the number of your unit. This is not a new policy but a reminder.

Please contact Connie Garland, Harvard Mgmt, at 603-429-2019 if you have any questions or need assistance.
