We would like to remind everyone that the day after the storm at 9:00am the snow removal contractor will be there to clean up the parking spaces. All vehicles need to be out of the lot while this work is being done.

Any vehicle that has not moved for snow at this time is subject for towing now. Please read the previous email for contact information on the towing company contact information.

The information has been posted on all of the bulletin boards as well.

Thank you
Connie Garland
Harvard Management
