Good morning everyone!

The equipment in the Club House Exercise room has recently been serviced and reviewed for safety with everything passing inspection.

The elliptical requires a repair part scheduled to be in sometime in the next 2 weeks. The elliptical is safe to use but may be a bit noisy

The displays on the 2 bicycles work but require new batteries which will be installed sometime next week.

The Board is looking into the cost of phasing in new equipment to replace our older donated pieces.

Please continue to report any issues with equipment to both the Board at OakBridgeNH@hotmail.com and our property manager Connie at 603-429-2019 x338 or cgarland@harvardmanagement.com.
