Good morning everyone

Management would like to communicate two parking issues that were just recently noted. The vehicle with the plate MAMA-K8 was parked in a numbered spot. The vehicle was tagged and will be towed without further notice.

The other vehicle with the plate KAWA11 has been parked in the visitor lot for several days now. We have also seen this car in the "P" lot areas. If you are the owner of this vehicle please contact me (603) 429-2019 ext 338. If the vehicle continues to be found in the lot it will be towed without further notice.

If anyone knows who these two vehicles belong to please email me cgarland@harvardmanagement.com

Thank you

Connie Garland
