Good afternoon everyone

We seem to be having an issue with guests or vehicles not registered at the property parking in the numbered spots. If you live at the property and your car is registered with the association you may park in any "P" spot at the property. Please make sure to park in your number spot if you have a space outside.

If you have a guest please make sure that they are parked in the guest lot.

Any vehicle that is parked in someone else's numbered spot will be towed without notice.

Please make sure to park in the appropriate lot. The permit lots have a sign at the entry.

Please observe the snow removal instructions. If you do not have them they are located at each of the bulletin boards for reference.

We do not want to tow vehicles here however we need everyone's cooperation with the parking.
