Good morning everyone

We still have one more day to go before we can open up the pool.

The hot tub has been evaluated and it has been determined that the computer board for the heater is no longer functional. One of the pumps is also leaking and needs to be replaced.

Once we received the final estimate the board will review the cost and approve the work.

It should be down approximately 2-3 weeks total. Management will keep everyone informed of any changes.

Thank you.
