Good morning everyone

Management received a complaint with regard to a Honda with the plate 385 0099 parked in a numbered spot over this past weekend.

Please make sure to tell your visitors to park in the visitor lots or off the property. If you know who this vehicle belongs to please inform them that if the car is seen again on the property and is parked in any space other than a visitor space it will be towed.

Because this vehicle was parked in an owner's space they had to parked in the visitor lot. This presents an issue when the towing company comes to monitor the parking lots.

Thank you

Connie Garland
