On Thursday June 16th NH Blacktop Sealers will be at the property crack filling and re-striping the parking spaces at the property. Please make arrangements to park your car off site for the day. There will be no issue if you have a garage space. If it rains on the 16th the work will be postponed until the 17th.

Also tomorrow is the deadline to get me your telephone number if you live in building 2 or 3. I will be turning in the work sheet tomorrow afternoon to the vendor so they can program the new system. The system does work with a cell phone.

Please contact me if you have any questions

Thank you

Connie
