Good afternoon everyone

Collins Tree Service will be starting with the removal of selected trees at the property on Tuesday morning beginning at approximately 7:30am.

They will be making their way throughout the property during the week. If you have children and are home during the day please make sure to supervise them more carefully while the tree company is at the property.

Management is waiting for the complete instruction booklet from the vendor and will be making changes as requested.

If you have any questions or concerns please contact me at the Harvard Office
