Good morning everyone

We are expecting a major storm on Thursday of this week. Please be reminded that the contractor will be there to clear the main roadways throughout the storm. [Once the storm ends they will be returning to clear the parking spaces on Friday morning.](#)

Please make sure to move all vehicles off the property by 9:00am. If live in an area where you can see the plow all we ask is that you have your vehicle ready to move. Any vehicles that remain unmoved by the end of Friday afternoon will be either towed from the site or fined \$250.00. We apologize for this steep fine/action however we need to have the lots cleared so that the contractor can do his job.

If you rent your unit out please make sure to inform your tenant of the snow removal process.

If you have any questions please contact me at cgarland@harvardmanagement.com or call (603) 429-2019 ext 338.

Thank you in advance.

Connie

FYI – Our lots need to be clear of vehicles by 9:00AM the day after a storm – but that doesn't mean plowing starts at 9:00AM. We have to be ready for the plow company to start by 9:00AM. Vehicles must remain off the lots UNTIL they are plowed, depending upon circumstances; this may not be until mid/late afternoon.

Regards, BOD
