Good afternoon everyone:

We hope you all made it through the storm yesterday. It was a very difficult storm due to the rate of snow in the afternoon. Clough Landscaping is working on the lots and unplowed areas today. Please make sure to move your car out of the lot and do not return it to the parking space until the entire lot is cleaned.

Recently we have received reports of young children and teenagers loitering in the stairwells/entryways. In both cases the children did not live at the property. In both cases the areas were left with trash. If you have children/teenagers please speak with them about this. If they do not live there they need to be asked to leave.

The vehicles parking in the permit spaces has improved, however please be aware that at any point if either you or a visitor parks in the permit spaces you may not have a vehicle. All of the lots are permit parking only. Visitor parking is marked by the clubhouse. There are assigned permit spaces there for specific owners. Please do not park in a numbered spot.

Management tagged an orange Volkswagon beetle in lot 4. This vehicle does not have a parking sticker and will be towed if it is seen at the property again.

If anyone has any questions or concerns please contact me cgarland@harvardmanagement.com.

Thank you
Connie Garland
