Good afternoon everyone

With summer coming we find much more activity coming and going from the buildings.

We have asked several times not to prop the doors open but we continue to see this happening.

Security is first and foremost at this property. It is unfortunate but we will need to start fining those residents that continue to do this. If you have children please make sure they understand that they cannot do this. The cigarette containers will soon be going away and we ask that in the meantime that you not use them to prop the doors open.

If you rent your unit please pass this along to your tenants. This is the first reminder. There will be no second reminders given so please make sure that you not prop the doors open.

Thank you

Connie Garland  
Property Manager
