Good morning everyone

Management spoke to Alliance Plumbing this morning and we anticipate that the hot water will be restored to the property by the end of the day. Please be aware that the hot water will need time to be brought up to temperature.

In addition to the water issue there is also an electrical issue in the boiler room that will also need to be repaired before the hot water can be restored. R & T Electric has been contacted to do this repair and they should arrive within the next few hours.

As long as all goes well we should be back up and running by the end of the day. The clubhouse does have a shower facility and you are more than welcome to use them.

We apologize for this inconvenience.

Thank you.

Connie Garland
Property Manager
