To:

Good afternoon everyone

As you may have noticed last night the Concord Fire Department was at building 3 from 9:00pm until 7:00am this morning. Hampshire Fire determined yesterday that the control panel for the fire alarm system simply shorted out and could not be repaired.

The panel will be replaced on Thursday. Until such time that the panel is replaced the association is responsible for monitoring the building. The following employees from the Evergreen Harvard Group

July 25th

9:00 - 2:00 - Nick LeBlanc

2:00 - 7:00 - Dan Beam

July 26th

9:00 - 2:00 - Brook Iworsky

2:00 - 7:00 - Phill Reischer

If you are in building 1,2 or 4 this is just for your information only.

If you have any questions please email me at cgarland@evergreenharvardgroup.com

Thank you

Connie Garland

Property Manager

Note – Evergreen Harvard Group maintenance people will be monitoring B3 overnight as listed above.
