Residents of Units 1-30 and 151-180:

[Please be advised that the NEW phone line intercom system will be installed on Tuesday, August 29th.](#) Because the system took longer than expected to arrive, anyone having any changes AFTER JULY 1st needs to email us with their last name and phone number.

The intercom speakers inside the units will no longer work and may be removed if you, the owner, wishes to do so.

Instructions for operation: The person outside makes the unit/name selection and simply pushes the button. Once this occurs, the person in the unit will answer and push 9 to release the door.
