Good Morning Folks! And brrrrr

Good news on the end of the building 3 construction project. A 3-week project, extended to 6+ weeks, has stretched patience beyond the breaking point. We had 7 additions to repairs as the building was opened, a week delay waiting for re-engineering specs and a lot more money spent.

The plan is to open the garage on Tuesday afternoon end-of-work-daylight. There will still be some work going on Wednesday but will not impede garage use.

As of Tuesday evening, parking goes back to normal. Visitors in visitor lot. Vehicles require OB parking sticker to park in an outside numbered or "P" spot. No parking only on designated parking spot on pavement (no nook or cranny parking). Reply to this email if you require a parking sticker or have questions.

Thank you for your patience during this stressful time. The building 3 garage end "has never been this safe and will last for a 100 years" per the engineer!

Regards, BOD
