Good Evening,

Pool Area Closing – The pool area will be closing for 2-4 days, starting December 14, 2017 while the Desert Aire system is being replaced. The door to the pool area will be locked to insure safety during construction. The locker rooms, bathrooms and water fountain WILL remain open during construction at normal hours (6AM – 9PM). Please do not attempt to use the pool area during the day while construction is happening. Another email blast will be sent when construction and cleaning is complete to let you know when pool area is ready for use. Thank you.

Plowing Stakes, Ice Melt – Snow plowing stakes were put up around the property today. Please do not let your children play with or remove these stakes. Also, ice melt buckets will again be available for your use at all entrances for the normal New Hampshire melting-refreezing of snow. The snow plowing company does shovel and treat all walkways during and after snow storms, but they do not come back numerous times during the day/night/week to check on walkway conditions when storms are over. Our current part-time maintenance person does not work here most week days to watch for this normal melting-refreezing of snow. We are working on getting additional help to periodically check the walkways. Just as a single home owner would do, we ask if you see a slick spot, please take a few seconds and throw some ice melt over the area.

If you have any questions, please reply to this email.

Regards, BOD
