Good Morning,

As with most of New England, we got hammered with lots of snow. The board has received questions regarding moving your vehicle for after storm clean-up today.

There is too much snow out there to leave it for another day --- as this email states: <http://oakbridgenh.org/emails/2018-01-19.pdf> off the website --- our lots will be cleaned today. All cars should be moved when they arrive, usually with a yellow bucket loader. They are again plowing the main roads at this moment.

The major storm was over before 9AM today so cleaning is today. It is mandatory that all the snow be removed off the pavement, which includes all parking spots. It is going to be a very cold week so this snow will be sticking around for a while. Not clearing the pavement opens the Association up to slip and fall issues.

Thank you for your co-operation with this storm's snow removal.

regards, BOD
