Good Morning,

New Emergency After-Hours Number - We have a new after-hours emergency phone answer service as our current one did not work out.

Always on Call, located in Concord, is our new emergency service.

-

Our personal, direct emergency number is: 603-513-7023

Please make sure you leave your name and unit number along with your message if you need to call in. Make sure you only call this number for serious emergencies. If there is a fire, pull your building fire alarm – call 911, do not call the emergency line. Website has been updated – building bulletin boards updated today.

Car Break-Ins – We recently had 2 vehicles broken into where things were stolen or the vehicle rummaged through. These vehicles were parked at opposite ends of the outside parking lots and had doors that were unlocked. With the warmer weather, our proximity to a main access road and Irvine open 24x7, we are in a prime area for late night parking lot “visitors.”

Call the police to report any theft or damage done to your vehicle on property. The police advise:

- Always lock your vehicle doors
- Do not leave valuables in your vehicle, especially electronics
- Keep personal items out-of-sight of those walking by

If you see something, say something!

Thank you - BOD
