Good Evening,

This email is being sent to all building 3 owners and tenants.

Just a quick update on the work being done to building 3 garage ceiling. Now that the ceiling areas are being opened, the job is bigger than anticipated. Welcome to Oak Bridge!

We will need ALL vehicles to be removed from B3 garage area between 8AM-5PM as we will be opening up and/or patching throughout the garage. We will also be addressing areas where ceiling paint is chipping and falling on your vehicles.

If there is no equipment or material in your spot, you will be able to park in your garage spot from 5PM-8AM which is great during these cold nights!

Please make sure your vehicle is moved by 8AM so as to not impeded progress. We will not be responsible for any vehicle damage if you elect to not move your vehicle out of the garage. Please do not ask the board, property management or vendor to move your vehicle as we cannot due to insurance liability.

Thank you for your co-operation.

Regard,  
Board of Directors  
Bishop Real Estate Management
