Good Morning,

Just quick update on B3 issues:

B3 buzzer was fixed today at 11:45AM. There are 3 vendors that need to be called to diagnose the 3 separate parts of the buzzer system and we are at the mercy of their schedules. Today's vendor was #3 in order.

B3 elevator was fixed at approx. 8:30AM.

B3 garage door has been left open to protect the door from damage due to it constantly going up/down. The garage door vendor stated they would be out today sometime to fix it.

Let's hope nothing else happens to B3!!

Regards,
Board of Directors
Bishop Real Estate Management

Oops – buzzer fixed at 10:45AM today – typo!!
