Good Morning,

Your cement patio flooring is scheduled to be repaired this year. Patio work is scheduled to begin the first week of June 3-7, weather permitting. Only the large patios will be addressed this year.

Please removed all items from your patio before June 3-7. The vendor will move any gas grills. Potter plants can be placed on mulched areas of the landscape during repairs to your patio. Please do not block outside access to your patio. Please do not block the ability to mow the grass.

Be careful to not cross any caution tape if placed across your patio slider as this will indicate the cement is not ready to be walked on.

Thank you for your co-operation.

Regards,
Board of Directors
