Good Afternoon,

Just a reminder. Work on your patio floors will begin this coming Tuesday, June 4, as rain is expected Monday. The cement floor is being fixed and once dried, a coat of cement sealing paint will be applied.

Please remove all items off your patios by Tuesday morning. Your gas grills can be left on patio and will be moved by the vendor. You must wait until the sealing paint has dried before you can use your patio which takes approximately a day to dry, weather dependent.

Be aware of any caution tape place across your slider if your patio floor is not ready to be walked on.

Thank you for your cooperation,  
Board of Directors
