Good Evening,

This email is being sent to all Oak Bridge owners and residents.

Good News! You do not have to move your outside vehicles on Tuesday as rain is predicted. You will be able to come/go from the garage on Tuesday.

The right side of the property was completed today. You may resume normal parking on B3 Irvine side and all spaces around B4 for the remainder of the week.

NH Blacktop will return on WEDNESDAY, 6/12, to finish the left side of the entrance way, B1, B2-3 garage area, front of club house and center by mail hut. Just like today, all roadways to left of property will be roped off during seal coating and painting and cannot be driven on Wednesday until approx. 5:30PM.

You will not be able to drive your vehicle out of the garages on Wednesday between 7:30AM and 5:30PM.

Please make sure you move your outside vehicle parked to the left side of the property as described above by 7:30AM. We will have no choice but to remove any vehicle parked where paving repairs will occur.

The pavement crew feels confident they only need Wednesday to complete the entire left side of the complex as described above. Pavement crew should not be back Thu. or Fri. this week. Yippee!

Answers to your questions:

- The garage floor is cement, not pavement, and is not part of this project. Cars may remain in the garage.
- On Weds. the B1-2-3-CH section of the complex pavement will be addressed. **You cannot come/go from the garage on Weds.** You will have to be out of the garage by 7:30AM if you need to use your car on Weds.
- There are numerous "P"ermit spaces on the Irvine side of B3 and behind B4 to put your car if you park in the garage and need to use your car on Weds.

Thank you for your continued cooperation with this project. The lots done look amazing!

Regards,
Board of Directors
