A quick update just received by the Board – because the pavement work was delayed 2 hours this morning when B2’s fire alarm was tripped due to the smoke from the pavement crack sealing process, we will NOT be able to open the left side of the complex at 5:30 tonight.

We hope to have the left side of the complex open by 8:00PM tonight. There are some “P” spots on the right side of B3 and behind B4. Otherwise, you can park in the Szechuan Garden strip mall parking lot until we open the left side of the complex.

PLEASE DO NOT GO AROUND THE CONES OR BARRIERS as we do not want to damage the work done. Monday, someone walked in the wet sealant on the right side of B3. We now have 2 sets of shoe print trails on the new pavement coating! Foot traffic is fine – please avoid walking on any yellow painted areas until 8PM.

B2 Elevator – is down due to an unexpected fire alarm issue that was triggered with this morning’s fire alarm. We have the appropriate vendor has been called. The elevator should be fixed by 7PM tonight.

We apologize for the delay. This pavement process only occurs once every 4 years and ALL residents need to be on board and following the information sent.

Regards,

Board of Directors
