Good Morning,

The B3 garage door has become a safety issue. Though the door was fixed, yet again, last night at 9:30PM, the Board has decided to replace this door to prevent any more issues.

For safety sake, B3 garage door is locked in the open position. All power to the door has been shut off at the breaker. Anyone touching the door locking lever will not be able to turn the power back on.

Please always remember parking in the garage should be treated the same as parking your vehicle on any outside parking spot. The garage is not a secure area. Remember to always lock your vehicle doors and remove any valuables or at least put all valuables out of sight.

We will send out another email when we have more information on door replacement as quotes for a new garage door are being worked.

If you have any questions, please reply to this email or call the property management company listed below.

Regards,

Board of Directors
