Good Evening Building 2+3 Owners and Residents,

In an attempt to help alleviate the on-going trash issues at building 2-3 dumpsters, effective immediately, the recycle bin (bin on the right side) at buildings 2-3 is no longer a recycle bin, can be used as a normal trash bin and will be emptied as regular trash starting on October 2nd.

There will still be 2 remaining recycle dumpsters on property; the right side of building 1-2 dumpster area and the right side of building 3-4 dumpster area. Signs are on order to indicate recycle dumpsters so there is no question. Please take your recyclable trash to these 2 dumpsters.

Thank you for your cooperation in this matter. Please call Bishop REM if you have any questions.

Regards,

Board of Directors
