Good Morning Oak Bridge Owners and Residents,

The board and management would like to thank all who moved your vehicles during the New Year's Eve day snowstorm clean-up. We were very pleased to see most of the lots empty for plowing by the 9AM timeframe. Those few who did not move have been addressed.

It was very unfortunate that the plowing company did not arrive to plow until 3:15 in the afternoon. The board and management company repeatedly called the plow company during the day. There were staff and equipment issues. We have addressed our concerns with the plowing company and were assured that this would not happen again.

The snow that was piled on the parking spots outside building 3 garage door was removed last night. We have also addressed this issue with our plowing company. Every single parking space at Oak Bridge must be cleared of snow and available as we have precious few spots available for parking.

The board and management want to apologize for the inconvenience of the 12/31 late plowing and thank all of you for your patience and understanding.

Happy New Year!

Board of Directors
