Subject: THANK YOU

To the residents and management at Oak Bridge Condominiums,

I am writing to Thank You for the gift of Disinfecting Wipes that were dropped off to the Manor Fire Station this week.

It goes without saying, that we are in unprecedented times, and the pandemic COVID-19 / Coronavirus has impacted every person to a degree we probably could have never anticipated.

The members of the Concord Fire Department take our duty to the public very seriously, and we are determined to continue to serve those needs in the very best ways possible. Our cleaning needs have, to say the least, "INCREASED". While none of us are wild fans of the intense cleaning regimens that we are forced to implement in order to keep our staff and the public we interact with, safe, We also recognize that it is necessary, and that by acting with due diligence and being proactive with our actions, we are best serving our community.

The support of our community is something we cherish and hold in very high regard, and as such, the willingness of citizens, and particularly, the Oak Bridge Community to step forward and support our mission is greatly appreciated and contributes to our success, and ultimately, to all of the public's safety and well-being.

On behalf of the members of the Concord Fire Department, THANK YOU to you all for your thoughtfulness, and generosity. It does NOT go unnoticed.

Wishing you all health and prosperity during these trying times.

Wash your hands, be safe, and together, we can make a difference.

Very respectfully,

Captain Jeff Stone
Station Commander – Manor Fire Station
Concord Fire Department

Cc: Interim Fire Chief Guy Newbery & Manor Station Officers
