Good Afternoon B4 Owners and Tenants,

To Whom it May Concern: Upon weekly building inspections today, it was noted that 2 bicycles are being tied to a tree on the Fisherville Road side of the building, between units 153 and 155.

The Association purchased expensive bike racks for each building. The one for building 4 is in the picnic area near the dumpster surround. We do not allow bikes to be left in or locked to any of our landscaping.

Please move your bikes and secure them to the appropriate bike racks for building 4 by 5PM Friday, 6/10. After this date/time, chains will be cut and bikes will be moved for you.

Thank you for your co-operation in this matter.

It Takes a Village,

Board of Directors
