To: You

Cc: BishopREM@hotmail.com

Good Morning Owners and Residents,

Thank You B2+B3 Residents

Thank you B2+B3 residents for moving your vehicles from the garage for 7/6 floor cleaning. There were only a few units that had to be called to move their vehicles. We appreciated your co-operation.

Water-Shut-Off – Thu 7/16

The City of Concord water department has scheduled OakB for backflow testing next week. The City backflow testing occurs twice a year. On **THURSDAY – July 16** between approx. 9AM to 12PM, water in each building will be shut off for a short period of time, usually only a maximum of 30 minutes per building, for this testing. We cannot predict when each building will be without water or in what order buildings will be tested.

Vehicles – Per Rules & Regs, the Board and management want to remind everyone:

8.b. All resident vehicles parked on property must be current in registration and inspection and in running condition per City of Concord.

8.c. All vehicles must display a valid parking permit sticker as defined on the unit information form directions in order to park in a “P”ermit or assigned parking space.

If you have any questions, please call Shelley at Bishop REM 880-6464.

Thank you for your understanding and co-operation.

Board of Directors
