The statements were reviewed and several questions were brought up. These will be referred to Elaine for explanation. It was again brought up that we would like the fines billed and then received as line items on the income statement. As mentioned again, we are unsure of what Great North's system is regarding financial items and it is an important item for both the board and the committee as we have several questions.

Delinquencies were discussed and what policy is to be used in shutting off and restarting fobs when someone is delinquent. Specifics of time and payments are to be discussed.
