

Concord has a new trash program - Pay-As-You-Throw (PAYT)

With ever increasing trash disposal costs, Concord City Officials needed to find ways to better manage expenses. They quickly found, as over 7,000 US towns and cities had already discovered, PAYT helps control costs, encourages recycling and results in less trash.

*Please
Do Your Part -
RECYCLE!*

*It couldn't
be easier!*

***NOW**
combine
all your
mixed
recyclables
into one
dumpster!*

Under the new PAYT program the City will be charging apartment and condo property management companies for each full dumpster of TRASH that gets hauled off (there was previously no charge for this service). However, specially marked "SINGLE STREAM/MIXED RECYCLING" dumpsters will be provided and hauled away at no charge.

Now there are financial reasons AND environmental reasons to recycle!

If you and your neighbors reduce your trash by recycling, you'll reduce the cost of trash pickup for your building complex.

What's single stream/mixed recycling?

It's a great new "all in one" way to recycle. It couldn't be easier! Simply throw all your recyclables into the recycling dumpster - your paper (anything that rips) and containers (plastic, glass, tin, and aluminum). The mixed recyclables will be separated using a combination of magnets, optical sorting machines and screens at a processing center.

PLEASE

Do Your Part - RECYCLE!

Single Stream (Mixed Recycling)

It couldn't be easier!
NOW combine all
your recyclables into
one container!

TRASH

Important: Please place recyclables loose into the dumpster. **DO NOT** package recyclables in plastic bags. Your plastic bags need to be recycled separately at your local grocery store.
