Good morning everyone

Prime Touch will be at the property on Thursday to begin the work on the buildings. Due to the inclement weather arriving tonight we have delayed the start date.

Also we would like to remind just building 3 decks and patios need to be cleared. When Prime Touch is done with building 3 we will notify the residents in the next building. There is no need for the other buildings to remove anything from the decks and patios at this time.

Thank you.

Connie Garland
