Good Morning,

Tomorrow morning, Weds 1/31 starting at approximately 7:30 AM, one of the hot water tanks in building 2 will be replaced. It should take approximately 4 hours to complete this process.

There will be hot water in the building but only half of total capacity – so hot water may run out. There is a possibility that the hot water may have to be completely shut off in the building if issues arise.

This is an emergency replacement and cannot be delayed. We are sorry for the short notice.

REMEMBER - there an unlimited supply of hot water in the club house so that is an option.

Thank you for your understanding,

Board of Directors
