Good Morning,

To the person who keeps shutting off the B2 garage door breaker – **STOP!**

Not only is this a security issue for the entire building but it could cause damage to the garage door which would be very costly to repair.

If you are caught doing this, a \$250 fine will be issued!

If there is an issue with the garage door, call the property management company at 880-6464 so it can be properly resolved.

Regards,
Board or Directors
