Dear B1 and B4 Owners and Residents,

On this Wednesday April 10 morning, our pest control company will be out to address the squirrels in the attic of buildings 1 and 4. They will be accessing the roof area from the outside but may have to work on the upper unit decks to access parts of the roof.

Please do not be alarmed if you see workers on your 3rd floor decks. They will not need to access the inside of your unit.

Regards,

Board of Directors
