

April 17, 2019

Dear Oak Bridge Condominium Association:

I am the Owner of Dog DNA Today, LLC, the distributor for PooPrints®. You were notified by the Board/Management of the new Pet Policy and that the PooPrints Program was being initiated.

In the announcement, you were told about the benefits of joining the program. I made a mistake in the information I provided and I wanted to clarify your benefits as a PooPrints member.

The 4th benefit listed should have read as follows:

The program enables owners to create a personalized, interactive life management plan within BioPet's World Pet Registry, and offers the opportunity for owners to purchase additional genetic screenings for diseases and health. This computer-based tool provides owners with suggestions about managing their dogs' health and can be used to improve communications with veterinarians and other care providers.

I apologize for any confusion my error caused. The PooPrints program and the benefits are wonderful and I encourage you to use your new account to the fullest.

I can be reached at debpalmer@dogdnatoday.com if you have any questions.

Sincerely,

Deb Palmer
Dog DNA Today, LLC
