Good Morning,

This email is being sent to all Oak Bridge owners and residents. Please read carefully.

The pavement vendor confirmed Friday AM they will be here bright and early Monday morning at 7:15AM to begin working our pavement. Cars may return on property after 5:30PM and park as normal unless areas of pavement are roped off.

Vendor will be attacking the right side of the property, from the right side of the entrance way B4, Irvine side of B3 and B3 drive around. They will be moving to the left side of the property with crack sealing as time permits on Monday.

Vendor may be back Tuesday weather dependent but looks rain all day. Vendor will return Wednesday to finish the left side of the entrance way, B1, B2-3 garage area, front of club house and center by mail hut.

Please make sure your vehicles are off property during pavement work. With all the emails and posted notices, we really do not want to tow any vehicles but have no choice if any vehicle is blocking pavement progress.

If you have been given a special spot on landscape to park (only one unit), please move your car in this spot sometime Sunday evening.

We will send out another email update Monday evening.

Thank you for your cooperation with this huge and exciting project. Our lots need it!

Regards,

Board of Directors
