Dear Building 1 Owners and Residents,

It appears that there have been difficulties in opening the lock on the door to Building 1 on the dumpster side of the building. The Association has repaired and/or replaced the lock three (3) times since March 2019, the last time was last Tuesday where the entire lock assembly was replaced, but alas it is broken yet again. It will be repaired for the 4th time today at approximately 8:00am.

We are asking all residents to please be careful when opening any entrance door. If you are having trouble with your key, please let us know, as soon as possible. We cannot continue to throw good money after bad by constantly making repairs and/or replacing the lock on this particular building 1 entrance door.

Please remember that this is your home, your community and we ask that you use the same care when opening this door as if it were your own door.

Regards,

Board of Directors

Shelley, Bishop REM 880-6464
