Good Afternoon B3 Owners and Tenants,

For those who did not see it, our new B3 garage door was driven into late this morning, breaking the door and rendering it inoperative.

The door is locked open so you can come/go from the garage. Another new door is being ordered today but may take a week or two to be delivered as this is not a standard size garage door.

Please do not touch the door, the chain or the breaker at any time while the door is locked open and make sure you continue to lock your car in the garage.

We thank you for your understanding and patience. We will keep you posted when a new door is scheduled to be installed.

Regards,

Board of Directors
