Good Evening B4 Owners and Tenants,

On Monday October 7, a dead tree will be removed from the middle of the picnic area behind the club house. It will be quite noisy on the picnic side of the building during removal.

We are asking the below units to **NOT** park in their assigned parking spots until the tree is completely removed and all tree removal vehicles are gone or have moved. The tree removal company needs access to the picnic area. Any vehicle that remains in the way may need to be towed or may be damaged and will be the vehicle owner's responsibility and expense. There are plenty of "P"ermit parking spots on the main road side of B4 where you can temporarily park your vehicle.

Units: 152 - 154 - 156 - 158 --- please do not park in your assigned spots on October 7.

If you have any questions, please call Shelley at Bishop REM.

Thank you for your cooperation,

Board of Directors
