Evening OakB Owners and Residents,

It is with a heavy heart we notify you that our wonderful club house will be closed until further notice due to the COVID-19 virus, effective immediately.

It is strongly recommended by the NH Condo Association and Governor, all facilities where people congregate should be closed, including condo rec rooms and club houses. The board has decided to close the club house to help our community stay as safe and healthy as possible.

Our weekly cleaning company has been doing extra cleaning of all doorknobs and door push plates/bars along with their normal cleaning duties for the past 2 weeks now, at no extra charge. Remember, they clean only once a week so be careful of all surfaces you touch. Also remember -- WASH YOU HANDS!

Thank you for your co-operation in these hard times. There will be an email going out within the next few days as a small group of volunteers is organizing to offer help to all residents of our community during these difficult times.

Please stay safe,
Board of Directors
