Good Afternoon B3 Owners and Residents,

As you know there have been issues with the elevator in your building. The problem was difficult to diagnose because it occurred sporadically. Fortunately, a cause was finally found along with a repair solution.

Your elevator repairs will take place tomorrow, late morning/early afternoon. It should take about 4 hours to complete these repairs.

Your elevator will be down during these repairs.

Thank you for your patience and co-operation.

Regards,

Board of Directors
